

AV 16.01.004.0010

25 August 2014

Dear traders and agents

LISTING OF NEW SHARK AND RAY SPECIES ON CITES APPENDIX II

We wish to inform you that the following species of sharks and rays have been listed on the Appendix II of the Convention on the International Trade in Endangered Species of Wild Fauna and Flora (CITES¹).

- Oceanic white-tip shark (*Carcharhinus longimanus*)
- Great hammerhead sharks (*Sphyrna mokarran*)
- Smooth hammerhead shark (*Sphyrna zygaena*)
- Scalloped hammerhead shark (*Sphyrna lewini*)
- Porbeagle (*Lamna nasus*)
- Manta rays (*Manta spp.*)

2 The listing shall come into effect from **14 September 2014**. This means that any import of the above-mentioned species would require a CITES export/re-export permit from the exporting/re-exporting country and a CITES import permit from AVA. The re-export of these species would also require a CITES re-export permit from AVA. The CITES permit² requirements would be applicable to live fish and their parts and products in frozen, chilled, canned or processed forms (eg. fins) of the fish.

3 Please refer to the enclosed Annex for the HS codes and product codes for the abovementioned species to be used in submission of TradeNet declaration. In order for AVA to facilitate the issuance of CITES re-export permit, please complete the attached declaration form if you have existing pre-Convention stocks of the above shark and ray species in your possession. Kindly return the completed form to AVA via email by **5 September 2014**.

4 If you require any clarifications, please feel free to contact AVA.
